    - Average number of indirect suppliers found per direct: 2.5
  - **Protocol:** GTFI-Good Practices
    - 99.9% of direct suppliers are in accordance with Good Practices (GTFI Boas Práticas)

**Opportunities**

- Measure and monitor compliance of direct suppliers with the GTFI Good Practices to map the possible risks of the indirect supplier chain.
- Identify patterns of behavior and potential sources of issues in order to support preventive actions.
- Obtain information in order to positively highlight producer sustainable practices and anticipate market demands.
- Support greater security and transparency for the Brazilian cattle supply chain.
- Improve the traceability and monitoring of deforestation in the Amazon.
